

Favourable prices for subscribers

As a one-stop-shop for the financial industry, Swiss Fund Data AG is a data and marketing hub for the electronic publication of fund data, documents and legal notifications.

The offering of Swiss Fund Data AG includes:

- Provision of an attractive system for entering subscriber-provided fund data (master data, regularly updated net asset values, other data per share and fund performance data)
- Publications required by law (mandatory documents, KIID, PRIIP, notices to investors) and other information
- System-supported checks of the completeness, up-to-date-ness and plausibility of asset values, publications and other data
- Archiving of net asset values and other data and publications required by law. Guarantee of constant traceability for five years
- Publication of net asset values, legally required publications, other information on websites provided for private or qualified investors (as defined by Art. 10 para. 3 of the Collective Investment Act) and other data
- Forwarding of data subject to disclosure to the Swiss National Bank in the name of and on behalf of the subscriber in order to simplify reporting
- Delivery of data to the media in the name of and on behalf of the subscriber, preparation of statistics on the development of the Swiss fund market and the market share of the subscriber

Duty to inform is fulfilled

By taking advantage of the full service package of Swiss Fund Data AG, subscribers fulfil the duty to inform with the exception of potential disclosures in any other legally required publication media.

Attractive annual fee

The costs for each investment fund are CHF 250 per year, effective from 1 January 2018 (excl. VAT if applicable).

If the investment fund is divided into unit classes, the fees stated apply to each unit class. **A maximum of two published unit classes will be charged per investment fund.**
